

FORMERRA: Materials for Interior Applications

Automotive interiors have evolved over the years from being a simple passenger compartment, to being a cozy space including all desired creature comforts. Ambient lighting, plush seating, modern infotainment systems, temperature-controlled cabins and decorative trim levels are just a few of the features that populate new vehicle designs.

Formerra is dedicated to supporting transportation customers and various interior application needs with our comprehensive materials portfolio of polymers, colorants and additives. We are also available to assist in navigating complex interior application designs through collaboration with our supplier technical and design teams.
